Headquarters, United States Army Forces Command
1777 Hardee Avenue, SW.
Fort McPherson, GA 30330-1062
17 December 1998

*FORSCOM Pamphlet 25-50

Official Mail
STANDARD STREET ADDRESS LISTING

History. This pamphlet supersedes FORSCOM Pamphlet 25-50, dated 31 July 1991.

Summary. This pamphlet contains a list of commonly used official mailing addresses and augments the standardized street addresses in DA Pamphlet 25-50. The Department of the Army required buildings on Army installations implement standardized street address and zip + 4 and input that data into the United States Postal Services National Directory System. Since many Army installations and mailing activities have not completed the standard street address conversion project, this pamphlet is being published as an interim address listing. This pamphlet applies only to addresses used on official mail. The Army has not implemented the use of standard street addressing for correspondence.

Applicability. This pamphlet applies to the Active Army, the Army National Guard, and the United States Army Reserve.

Suggested improvements. The proponent of this pamphlet is the Deputy Chief of Staff for Command, Control, Communications and Computers (DCSC4). Users are invited to send comments and suggestions on DA Form 2028, Recommended Changes to Publications and Blank Forms, to CDR, FORSCOM, ATTN: AFCE-A, 1777 Hardee Avenue, SW., Fort McPherson, GA 30330-1062.

Supplementation. Supplementation of this pamphlet is prohibited without prior approval of the FORSCOM DCSC4.

Changes. Changes to this pamphlet are not official unless authenticated by the FORSCOM DCSC4.

Distribution restrictions. Approved for public release; distribution unlimited. Local reproduction is authorized.

FOR THE COMMANDER:

OFFICIAL: JOHN M. PICKLER
Lieutenant General, USA
Chief of Staff

SIGNED

DALE E. PEYTON
COL, GS
Assistant Deputy Chief of Staff for
Command, Control, Communications
and Computers

DISTRIBUTION of this pamphlet is special, whereas, copies should be furnished to the lowest command levels of the Active Army, Army National Guard and U.S. Army Reserve.

Copies furnished:
HQ FORSCOM (AFCE-A) (record copy).

CHAPTER 1

Introduction

1-1. Purpose

a. This pamphlet provides standardized street address and zip + 4 format of commonly used official mailing addresses. This listing augments DA Pamphlet 25-50 which contains all Army mailing addresses, and the draft form of this pamphlet is currently being staffed Army wide. The Army has not implemented the use of standard street addressing for correspondence.

b. The secondary objective for this document is to use standardized street address and zip + 4 format on mail pieces that enhance U.S. Postal Services (USPS) automated processing and delivery of Army official mail. The standard abbreviations specified by USPS are to be used. Individual words in Department of Defense activity names may be abbreviated using USPS Publication 28 as a guide. However, acronyms should be avoided as they are meaningless to most people sorting mail. Illustration: Military Postal Service Agency may be abbreviated as Mltry Pstl Svc Agcy, whereas, MPSA should not be used.

c. Elements of address standardization include uniform coding of addresses provided in USPS address Information System (AIS) that produces universal format for coding addresses in USPS address management system database. Subsequently, these requirements facilitate the processing capability of automated equipment through improved address quality.

1-2. References

- AR 25-51, Official Mail and Distribution Management
- AR 25-50, Preparing and Managing Correspondence
- USPS Domestic Mail Manual (This is the primary USPS manual used in the operation of post offices. It contains guidance and instruction that provide standards for postal rates, services, preparation methods, and mail piece design.)
- USPS Publication 25, Designing Letter Mail
- USPS Publication 28, Postal Addressing Standards

1-3. Overview

Pursuant to public law, USPS have developed and implemented mail preparation standards that require new criteria for addressing and processing mail. Standardized address should be "machine readable" on U.S. Army official mail, both, delivery and return. All addresses shall be printed by mechanical formatting, such as typewriter, word processor, personal computer printer, or commercially printed. Hand printing and rubber stamps will not be authorized since they are not readable by USPS automation equipment.

- (1) Submitted mail piece for zip + 4 rates must meet USPS requirements that are stated in the USPS Domestic Mail Manual.
- (2) Completed addresses that match USPS files and/or directories have a better chance of being promptly processed via automation and placed into the mainstream for speedy delivery to the addressee.
- (3) The USPS will charge lower rates for automated mail that can be processed at low cost.

GLOSSARY

Abbreviations and Terms

USPS STANDARD - Common Presentation

ACQSTN - Acquisition

ADMNSTRV - Administrative

ADJT - Adjutant

ADM - Admiral

AGCY -Agency

ARMN - Airman

ARMED - Armed

ARMRD - Armored

ARPRT - Airport

APARTMENT - APT

APO - Army/Air Force post office

ATTN - Attention

AUDT - Audit

BLDG - Building

BLVD - Boulevard

BR - Branch

BRM - Business Reply Mail: Specially printed cards, envelopes, cartons, and labels that may be mailed without payment of postage. The postage and fees are collected when the mail is delivered back to the sender.

BUS - Business

CP - Camp

CEN - Center

CHEML - Chemical

CMND - Command.

CMMTE - Committee

CNTRLLR - Controller

CRM - Courtesy Reply Mail: a preprinted return envelope or card provided as a courtesy to customers. Return postage is pay by the customer returning a response to the original sender.

CRMNL - Criminal

DEPT - Department

DPTY - Deputy

DEV - Development

DIST - District

DISTRB - Distribution

DIRCTRT - Directorate

DIV - Division

DOCTR - Doctrine

DMM - Domestic Mail Manual: The USPS postal service manual containing most regulations for domestic mail services.

DPBC - Delivery Point Barcode: A zip + 4 bar code containing two additional digits (represented by 10 additional bars) that designate a specific delivery point.

DR - Drive

ELMNT - Element

EMPLMNT - Employment

ENVIR - Environment

EXPY - Expressway

FLD - Field

FNCL - Financial

FL - Floor

FRC - Force

FPO - Fleet Post Office (Navy and Marine Corps)

GOVT - Government

GRP - Group

HNGR - Hanger

HDQTRS - Headquarters

HWY - Highway

IMM - International Mail Manual: USPS postal service manual containing all regulations for international mail services.

IND - Industrial

INSTLTN - Installation

INST - Institute

INVSTGTN - Investigation

LANG - Language

LOGISTC - Logistic

MNTNC - Maintenance

MGMT - Management

MNPWR - Manpower

MLTRY - Military

MLOCR – Multi-line Optical Character Reader: A machine that scans (reads) an entire address block on mail, translates the address into a corresponding bar code, sprays the bar code onto the mail, then sorts the mail to an appropriate stacker with a throughput of 30,000 to 37,000 pieces an hour, depending on the type of mail.

NATL - National.

OCR - Optical Character Reader: A piece of computer-controlled automated equipment that locates, reads, and interprets address information (contained on the face of a mail piece), sprays a bar code, and sorts the mail piece into a stacker.

OFC - Office

OPRN - Operation

PKWY - Parkway

PLC - Police

REGL - Regional

RSRCH - Research

RESV - Reserve

RD - Road

SM - Small

SPEC - Special

STAT - State

SPPRT - Support

SYST - System

THTR - Theatre

TRFC - Traffic.

TRAIN - Training.

TRNSPRTN - Transportation

UTLZTN - Utilization

ZIP + 4 - A nine-digit numeric code incorporating the original five-digit ZIP code, a hyphen, and four additional digits. The first five digits identify the delivery office. The four digit add-on identifies a specific delivery segment such as a city block face, a floor of a building, a department within a firm, or a group of post office boxes.
